Robot Talent Show

HOST ONLY - preparation and story

Includes answers. Keep these pages and all hint pages with the adult host.

Welcome to the robot talent stage. The robots need a checked starting configuration before the curtain can open. Your team has the original records on the table. First recover five pieces of information, then use the final plan to set the robot show controller. Keep every result beside its badge so another teammate can check your reasoning.

1. Print the six player sheets and two record sheets for each team. Keep answers and hints with the host.

2. Lay out Unlabelled legend, Performer list, the remaining clue sheets and the final plan. All task records are printed inside the sheets; no extra prop is needed.

3. After each clue, pass roles one seat clockwise. With two players, combine Reader with Recorder and Checker with Builder. With five or six, add a second checker and a source finder; everyone explains one decision.

4 players; 1 team. Give each team 6 player sheets and 2 record sheets. Share one host guide and one set of three hint levels.

Paper and pencils are enough. Keep whole sheets at one table; nothing needs cutting, folding or hiding.

Optional: 4 invitations or certificates, only if selected.

Robot Talent Show

HOST ONLY - solution guide

1. Signal: HOLD-RIGHT

A consistent one-to-one mapping satisfies every training example. Use the complete mapping to read the two-signal message in order. Result: HOLD-RIGHT.

2. Record: EAST

Check source status first, then join the matching tag. The useful information comes from separate records, not their printed row order. Result: EAST.

3. Song: 7

The decoded word is SHOW; its row gives 7. Result: 7.

4. Program: 3

The only order is Test sound > Check light > Load program > Start show. Position 2 carries 3. Result: 3.

5. Stage: 4

B3, C1, D2, A1 reads SHOW. The conversion table gives 4. Result: 4.

6. Final: A0-B1-C0-D2-E2

Select one pulse card for each of the five badge results. Add the turns by dial column to the printed starting states and wrap each total around 0, 1, 2. The checked configuration is A0-B1-C0-D2-E2; each pulse pair has equal size and total turns, so its shape does not identify the correct choice.

Robot Talent Show

HOST ONLY - timeline, story and ending

3 minutes: Read the opening. Show the evidence record and choose starting roles.

5 minutes: Solve Signal. Offer one hint at a time and rotate roles after checking.

5 minutes: Solve Record. Offer one hint at a time and rotate roles after checking.

5 minutes: Solve Song. Offer one hint at a time and rotate roles after checking.

5 minutes: Solve Program. Offer one hint at a time and rotate roles after checking.

5 minutes: Solve Stage. Offer one hint at a time and rotate roles after checking.

7 minutes: Build the checked five-dial configuration using all five results.

3 minutes: Read the ending. Ask each teammate to explain one rejected alternative.

After Record: Several recovered pulses may affect the same dial. Keep the legend and the starting positions visible. Pass the record sheet to a new checker before opening the next clue.

After Program: Four results are recorded. Each teammate points to a source supporting one result. Complete the fifth check before building the checked five-dial configuration.

Check every result using the solution guide. Offer the next hint only when requested; save the answer reveal until the group is ready.

The panel is ready at A0-B1-C0-D2-E2; every recorded pulse has been applied. Thank each teammate for a different piece of reasoning.

Explain one tempting wrong choice and the evidence that ruled it out. Show how each of the five results affected the checked five-dial configuration. If a clue is missing, say what remains uncertain before reopening that sheet.

Duration and ages are estimates. Adjust the pace and offer help for your group.

Robot Talent Show

Player clue 1: Signal | Team 1

The robots need a checked starting configuration before the curtain can open. We will use the records on the table to set the robot show controller. Share the reading, explain each choice and keep the five results for the final plan.

Each signal means one different word. Use the training examples to recover the legend. Words marked "any order" may be swapped; compare shared signals across cards. Decode the received message from left to right.

Unlabelled legend

Signals: DOT, BAR, ARC. Words: LEFT, HOLD, RIGHT.

Each signal has one word; each word is used once.

Training messages

DOT+BAR means HOLD+LEFT (any order)

BAR+ARC means HOLD+RIGHT (any order)

DOT+ARC means LEFT+RIGHT (any order)

Received message

BAR > ARC

Report decoded words in order, with hyphens.

Signal result: _____

Robot Talent Show

Player clue 2: Record | Team 1

Use the performer list and stage slots to follow the completed record. Match printed keys, then report the requested field. A planned or cancelled entry cannot prove a move.

Performer list

item: Drum | tag: PINE | status: checked

item: Lamp | tag: WAVE | status: cancelled

item: Wheel | tag: STAR | status: draft

Stage slots

tag: STAR | bay: NORTH

tag: PINE | bay: EAST

tag: WAVE | bay: WEST

Cross-check

Match A.tag to B.tag.

A.status is not cancelled.

A.status is not draft.

Report B.bay.

Record result: _____

Robot Talent Show

Player clue 3: Song | Team 1

Song desk: Decode all shapes in message order. Repeated shapes repeat their letter. Convert the full word using the table.

square = S circle = H star = O diamond = W

square circle star diamond

SHOW = 7

GEAR = 0

RAIL = 3

Song result: _____

Robot Talent Show

Player clue 4: Program | Team 1

Program desk: Combine every BEFORE rule to order the four actions. Write positions on the whole-sheet cards. Read position 2.

Start show [7]	**Check light [3]**
Test sound [1]	**Load program [5]**

Test sound BEFORE Load program

Check light BEFORE Start show

Load program BEFORE Start show

Test sound BEFORE Check light

Check light BEFORE Load program

Read position 2 (positions start at 1).

Program result: _____

Robot Talent Show

Player clue 5: Stage | Team 1

Stage desk: Read the letter at each coordinate, in order. Letter = column; number = row. Convert the complete word using the printed table.

Columns: A, B, C, D. Rows: 1, 2, 3.

1	**W**	**N**	**H**	**U**
2	**Q**	**T**	**W**	**O**
3	**V**	**S**	**B**	**E**

SHOW = 4

GEAR = 7

RAIL = 0

READ COORDINATES IN ORDER:

B3 > C1 > D2 > A1

Stage result: _____

Robot Talent Show

Player clue 6: Final | Team 1

Use the five results to select five pulse cards. Start at the recorded dial states. Add all selected turns for each dial and follow its loop: 0, 1, 2, then 0 again. Report the final state of dials A through E.

Use your results from: Signal, Record, Song, Program, Stage.

Control panel

Dial order: A, B, C, D, E. States: 0 > 1 > 2 (loop).

Start: A2 / B0 / C1 / D2 / E0.

Pulse cards (turns in dial order)

Signal: LEFT-HOLD=(2,1,0,0,0); HOLD-RIGHT=(1,2,0,0,0)

Record: EAST=(0,2,0,1,0); NORTH=(0,1,0,2,0)

Song: 0=(0,0,1,2,0); 7=(0,0,2,1,0)

Program: 3=(2,0,0,1,0); 7=(1,0,0,2,0)

Stage: 7=(2,0,0,0,1); 4=(1,0,0,0,2)

Setting rule

Add every chosen pulse. Move around each dial loop.

Report dial ID + state, in order, with hyphens.

Final result: _____

Ask your host to check your final result and read the ending.

Robot Talent Show

Hint level 1 - HOST ONLY

1. Signal

Look at the training cards that share one signal.

2. Record

Start with the status field in Performer list.

3. Song

Find the symbol key and the message strip.

4. Program

Find all the event cards and the before notes.

5. Stage

Find the column letters and row numbers on the grid.

6. Final

Find the starting states, dial order and pulse-card key.

Robot Talent Show

Hint level 2 - HOST ONLY

1. Signal

In an unordered pair, a word cannot be assigned by its left/right position. Use the overlap with another pair.

2. Record

The tag links an item to a bay; rows in separate records need not line up.

3. Song

Use the same key every time a symbol repeats. Read the message in its printed order.

4. Program

Connect cards linked by the notes; a card position is counted from the beginning of the completed order.

5. Stage

A coordinate gives column first and row second; keep the printed coordinate order.

6. Final

Each selected vector lists turns for every dial. Several different cards can affect the same dial.

Robot Talent Show

Hint level 3 - HOST ONLY

1. Signal

Give each signal a different word, check every training example and only then decode the received message in its printed order.

2. Record

Keep only entries meeting every status test. Follow each printed join to the report field; do not guess from row position.

3. Song

Write the complete decoded word, check every symbol, then use the conversion row for that exact word.

4. Program

Check every before relationship, then read only the requested position. The printed card arrangement is not the answer order.

5. Stage

Read the full word before using the conversion table. If the word is missing, recheck each row and column rather than choosing a similar word.

6. Final

Add one dial column at a time to its starting state, wrap around the three-state loop, then check that all five pulse cards were used.

Robot Talent Show

Team 1 result record

Write the complete result from each clue. Results can be words, routes, orders, settings or numbers.

Signal: _____

Record: _____

Song: _____

Program: _____

Stage: _____

Keep this record beside the final clue. Copy results exactly, including any leading zero.

Reader / Recorder / Evidence checker / Route or model builder

After each clue, pass roles one seat clockwise. With two players, combine Reader with Recorder and Checker with Builder. With five or six, add a second checker and a source finder; everyone explains one decision.

Robot Talent Show

Team 1 final result and celebration

Our final challenge: Final

We combined our earlier clues to decide:

_____

_____

We know it works because:

_____

_____

Host: compare the result with your solution guide. Read the ending when it matches, then let the team explain one discovery.

No physical lock or prize is required. Draw a celebration star here if you like.

Robot Talent Show

You're invited to a mystery!

Join Birthday Explorer for Robot Talent Show.

The robots need a checked starting configuration before the curtain can open. Work together to set the robot show controller.

Date: _____

Time: _____

Place: _____

Bring your curiosity. Paper and pencils are provided. Share ideas and solve six clues together.

Designed for ages 8-10. Estimated 35-50 minutes.
