

Dinosaur Egg Patrol

Player clue 1: Order | Team 1

The field team must finish its careful survey before the nest path closes. We will use the records on the table to reconstruct the nest survey. Share the reading, explain each choice and keep the five results for the final plan.

Arrange the four event cards using every witness note. "Immediately before" means there is no event between them. Report the requested position after the whole order has been checked.

Event cards

A: Observe nest

B: Draw nest

C: Mark path

D: Count shells

Witness notes

D is immediately before B.

A is before D.

C is immediately before A.

Report the event ID in position 3.

Order result: _____

Departure windows (minutes after opening)

EARLY: start 15; window ends 30

MID: start 25; window ends 40
