

Dinosaur Nest Census

Hint level 1 - HOST ONLY

1. Food

Start with the available-food line, not with the visitor names.

2. Habitat

Place a finger on the same feature in each field card.

3. Survey

Find all the event cards and the before notes.

4. Nest

Find the exact target word and the allowed reading direction.

5. Point

Find the starting square and read the full move list.

6. Final

Keep the five named results beside the final plan and find the key for each badge.

Dinosaur Nest Census

Hint level 2 - HOST ONLY

1. Food

AND needs both foods. OR needs either food. A circular pair still needs an outside starting food.

2. Habitat

A "must not" rule removes a match; it does not ask you to look for that feature.

3. Survey

Connect cards linked by the notes; a card position is counted from the beginning of the completed order.

4. Nest

A reversed word or almost-matching spelling does not qualify.

5. Point

Each move changes just one square. Keep track of row and column after each move.

6. Final

Each badge controls a different fact, road leg, order note, pulse or habitat layer. Use the matching key exactly once.

Dinosaur Nest Census

Hint level 3 - HOST ONLY

1. Food

Mark each creature whose food is already available; repeat until no new creature can be marked. Then compare only the listed visitors.

2. Habitat

Test every remaining card against all requirements. Explain the particular requirement each rejected card fails.

3. Survey

Check every before relationship, then read only the requested position. The printed card arrangement is not the answer order.

4. Nest

Check every letter of the full word, then read the digit immediately after it in the permitted direction.

5. Point

Trace the moves one at a time, then retrace them to check the final square before recording its value.

6. Final

Check the completed product against all five recovered facts. If two answers remain, locate the fact that distinguishes them rather than guessing.
