

Fossil Track Registry

Hint level 1 - HOST ONLY

1. Food

Start with the available-food line, not with the visitor names.

2. Kit

Read each supply card and the three required needs.

3. Track

Compare the same numbered position in the two strips.

4. Label

Find the exact target word and the allowed reading direction.

5. Drawer

Find the column letters and row numbers on the grid.

6. Final

Keep the five named results beside the final plan and find the key for each badge.

Fossil Track Registry

Hint level 2 - HOST ONLY

1. Food

AND needs both foods. OR needs either food. A circular pair still needs an outside starting food.

2. Kit

A light card alone may leave a need uncovered; a shared supply counts for both needs.

3. Track

A difference belongs to a pair of positions and is counted once, even when both shapes differ.

4. Label

A reversed word or almost-matching spelling does not qualify.

5. Drawer

A coordinate gives column first and row second; keep the printed coordinate order.

6. Final

Each badge controls a different fact, road leg, order note, pulse or habitat layer. Use the matching key exactly once.

Fossil Track Registry

Hint level 3 - HOST ONLY

1. Food

Mark each creature whose food is already available; repeat until no new creature can be marked. Then compare only the listed visitors.

2. Kit

Compare complete combinations, adding each chosen card weight once. Reject any combination over the limit before choosing the lightest.

3. Track

Mark every changed pair, check the unmarked pairs, then count your marks. Ignore titles and box outlines.

4. Label

Check every letter of the full word, then read the digit immediately after it in the permitted direction.

5. Drawer

Read the full word before using the conversion table. If the word is missing, recheck each row and column rather than choosing a similar word.

6. Final

Check the completed product against all five recovered facts. If two answers remain, locate the fact that distinguishes them rather than guessing.
