

Robot Talent Show

HOST ONLY - preparation and story

Includes answers. Keep these pages with an adult.

The birthday team has arrived, but one important part of the celebration is missing. Put the robot acts into the birthday show order. Collect five named badge digits, then use the final sheet to finish your mission. All the clues you need are printed here. Work together and ask for a hint whenever you want.

1. Print one player pack and two record sheets per team. Keep the host answers and all three hint levels with the adult.
2. Keep every clue as a full sheet at one table. Put the final sheet face down until all five results are recorded. Nothing needs cutting, folding or hiding.
3. Give each child a pencil. Choose a reader, recorder and checker, and swap jobs after each clue. Use one team for 2-4 children or two teams for 5-6.

Players: 4; teams: 1. Print one player and prop set per team. Invitations and certificates: 4 each.

No locks, purchases or cutting required. Keep all clues at a low table. Scissors are optional and for adults only.

Robot Talent Show

1. Act: 5

A fails striped; C fails not-round; only B meets all three requirements and gives 5.

3. Song: 2

4. Program: 5

The rules form one chain: Pack the bag > Reach the station > Board the train > Arrive at the party.

5. Stage: 0

Move exactly one orthogonal square per arrow; copy only the value at the endpoint.

6. Final: 20554

Player clue 2: Power | Team 1

All parcels have the same whole-number weight. Use the first rule to find ONE parcel, then check it against the second rule.

$$3 \text{ parcels} + 2 \text{ loose units} = 14 \text{ units}$$

$$2 \text{ parcels} + 5 \text{ loose units} = 13 \text{ units}$$

One parcel = ? units. Whole numbers 1-9.

All parcels have equal weight.

5. Stage

One arrow means one square, even if the next square looks interesting.

Robot Talent Show
