

Station Ticket Timeline

Hint level 1 - HOST ONLY

1. Record

Start with the status field in Ticket slips.

2. Kit

Read each supply card and the three required needs.

3. Print

Compare the same numbered position in the two strips.

4. Fare

Find opening stock, closing stock and the DONE or CANCELLED marks.

5. Platform

Find the column letters and row numbers on the grid.

6. Final

Keep the five named results beside the final plan and find the key for each badge.

Station Ticket Timeline

Hint level 2 - HOST ONLY

1. Record

The tag links an item to a bay; rows in separate records need not line up.

2. Kit

A light card alone may leave a need uncovered; a shared supply counts for both needs.

3. Print

A difference belongs to a pair of positions and is counted once, even when both shapes differ.

4. Fare

Only completed entries change stock. A cancelled plan cannot be added or subtracted.

5. Platform

A coordinate gives column first and row second; keep the printed coordinate order.

6. Final

Each badge controls a different fact, road leg, order note, pulse or habitat layer. Use the matching key exactly once.

Station Ticket Timeline

Hint level 3 - HOST ONLY

1. Record

Keep only entries meeting every status test. Follow each printed join to the report field; do not guess from row position.

2. Kit

Compare complete combinations, adding each chosen card weight once. Reject any combination over the limit before choosing the lightest.

3. Print

Mark every changed pair, check the unmarked pairs, then count your marks. Ignore titles and box outlines.

4. Fare

Apply every known completed change to opening stock. Compare that result with closing stock to recover the missing completed return.

5. Platform

Read the full word before using the conversion table. If the word is missing, recheck each row and column rather than choosing a similar word.

6. Final

Check the completed product against all five recovered facts. If two answers remain, locate the fact that distinguishes them rather than guessing.
