

Triceratops Supply Desk

Hint level 1 - HOST ONLY

1. Food

Start with the available-food line, not with the visitor names.

2. Kit

Read each supply card and the three required needs.

3. Load

Find the equal parcels and the separate loose units.

4. Note

Find the symbol key and the message strip.

5. Plot

Find the column letters and row numbers on the grid.

6. Final

Keep the five named results beside the final plan and find the key for each badge.

Triceratops Supply Desk

Hint level 2 - HOST ONLY

1. Food

AND needs both foods. OR needs either food. A circular pair still needs an outside starting food.

2. Kit

A light card alone may leave a need uncovered; a shared supply counts for both needs.

3. Load

Remove the loose units before sharing the remaining weight among equal parcels.

4. Note

Use the same key every time a symbol repeats. Read the message in its printed order.

5. Plot

A coordinate gives column first and row second; keep the printed coordinate order.

6. Final

Each badge controls a different fact, road leg, order note, pulse or habitat layer. Use the matching key exactly once.

Triceratops Supply Desk

Hint level 3 - HOST ONLY

1. Food

Mark each creature whose food is already available; repeat until no new creature can be marked. Then compare only the listed visitors.

2. Kit

Compare complete combinations, adding each chosen card weight once. Reject any combination over the limit before choosing the lightest.

3. Load

Find one parcel from the first equation, then substitute that weight into the second equation before recording it.

4. Note

Write the complete decoded word, check every symbol, then use the conversion row for that exact word.

5. Plot

Read the full word before using the conversion table. If the word is missing, recheck each row and column rather than choosing a similar word.

6. Final

Check the completed product against all five recovered facts. If two answers remain, locate the fact that distinguishes them rather than guessing.
